

JOB DESCRIPTION: QUALITY CONTROLLER (RAW MATERIALS)

Company: Sensory FX (Pty) Ltd
Location: Hennopspark, Centurion
Contract Type: Full time, permanent
Industry: Chemical

About us:

Sensory FX is a trailblazing developer and manufacturer of flavours and fragrances for a broad range of products – from food and beverages to household and personal care. As an industry pioneer in sub-Saharan Africa, we're known far and wide for our excellent service and high-quality products. Over the years, we're proud to have helped create and define some of the continent's best-loved brands. This is due to the fact that we don't just understand the science of fragrance and flavour, but the psychology behind it too – which allows us to craft uniquely appealing tastes and scents.

Purpose of position:

To analyse, evaluate and verify compliance of materials against standard samples and specifications set for each product and execute quality control processes and related activities of the company.

Roles and responsibilities:

- Analyze physical characteristics (RI, Density, SG, Moisture, Flashpoint, pH, Solubility, Ethanol content, cloud point).
- Analyse, evaluate and verify compliance of materials against standard samples and specifications set for each product.
- Conduct sensory evaluations including appearance, colour, odour and taste.
- Sample incoming materials.
- Print and verify labels of approved materials.
- Label "on hold" and "rejected" raw materials and packaging materials.
- Prepare labels and COA's of raw materials sold to customers.
- Record test results onto the QC database.
- Sample materials due for re-assessments.
- Prepare samples for Sensory Evaluation QC.
- Maintain retention sample storage.
- Inspect all delivery vehicles and report any deviances.
- Test all incoming packaging materials following testing procedures.
- Update the shelf life of all materials.

Requirements & Skills:

- BSc Degree or Diploma in Science or Chemistry.
- At least 5 years' industry experience.
- Understanding of statistical process control systems measurement techniques.
- Computer literate.
- Good analytics skills.
- Good laboratory practices.
